

DATA WIPE/DESTRUCTION

A convenient solution to reduce the risk of costly security breaches by permanently erasing or destroying data on desktop/laptop computers and servers

DATA ERASURE

- Erases sensitive data securely and permanently
- Removes BIOS freezlocks
- Identifies false positives during data erasure process
- Provides digitally signed certificate of proof of secure erasure for auditing
- 100% certified and tamper-proof audit trail
- Ensures compliance with industry standards

DESTRUCTION

- Destroys media in seconds, making the material completely irretrievable
- Secure process
- Secure chain of custody and reporting
- Our site – pick up media, maintain a secure chain of custody, provide detail reporting
- Your site – technicians to your site and provide complete service
